PROFESSIONAL SUMMARY

I am dedicated to delivering high-quality software and to create beautiful, accessible applications. I am excited to jump into new opportunities and am committed to learning new technologies. As an accountant, I am eager to bring my financial expertise to the world of software development.

PROJECTS

FitCal

Repository: <https://github.com/Robdom87/FitCal>

Handlebars, Node.js, Express.js, Connect Session Sequelize, Chart.js, Bulma, SQL

August 2022- October 2022

- Built out nutrition table pulling real data from a third party API and user input to estimate their dietary intake.
- Constructed routing to create, read, update, and delete users, posts, and reactions within a SQL database via URL requests to store workout information and feed our data visualization tool

NFTaxes Inc.

Los Angeles, CA

React.js, Mongoose, Alchemy API, Blockchair API, PDF-LIB

September 2021- October 2022

- Collaborated with the development team in implementing the foundational infrastructure in the automated NFT Tax Calculator; resulting in a solid product that got 8000 of sales in 5 days of being up.
